The Family hot tub has been developed to take the needs of the whole family into account, regardless of age and physical condition. As part of hot tub’s design there a bench that can be used to cool off and children can sit on it more easily. You can rest your back and arms on the specially designed edges of the bench. The design of the bench is ideal to climbing into and out of the hot tub. On top of practicality and easy access the safety is better with the bench. The Family hot tub model has been developed by popular request. Family L is large enough even for bigger groups.

The hot tub is heated with an efficient black Cube heater with a timeless design and colour; it heats even large tubs quickly. It is made out of high-quality marine-grade aluminium.

The outer shell is made out of hard-wearing plastic panels in timeless mocca that suit a modern environment. The smooth surface is easy to clean, and the material needs no additional treatment besides cleaning. As inside colour, soft beige is velvety smooth with translucent surface. The beige colour can stimulate discussion that could encourage bathers to sit down and discuss longer in hot tub.

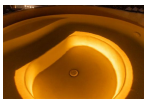

The barrel diameter is 200 cm and water volume 1930 litres. It is suitable for 6-8 people. The dry weight of the hot tub is 200 kg. The gross heat output of the CUBE stove is 48 kW and the net heat output transferred to the water is 35 kW.
