The Family hot tub has been developed to take the needs of the whole family into account, regardless of age and physical condition. As part of hot tub’s design there a bench that can be used to cool off and children can sit on it more easily. You can rest your back on the specially designed edges of the bench. The design of the bench is ideal to climbing into and out of the hot tub. On top of practicality and easy access the safety is better with the bench.

The hot tub is heated with a shapely external grey Macu heater, suitable for heating medium-sized tubs. It is made out of high-quality marine-grade aluminium.

The outer shell is made out of hard-wearing plastic panels in timeless night black that suit a modern environment. The smooth surface is easy to clean, and the material needs no additional treatment besides cleaning. Light gray is velvety smooth and delicate dotted inside colour. The soft, vibrant grey of the interior is always timeless and elegant, and it blends in beautifully with the environment.

The barrel diameter is 170 cm and water volume 1370 litres. It is suitable for 3-5 people. The dry weight of the hot tub is 162 kg. The gross heat output of the MACU stove is 40 kW and the net heat output transferred to the water is 29 kW.
