WEIGHT:	140 kg
PRODUCT LENGTH:	145 cm
PRODUCT WIDTH:	170 cm
PRODUCT HEIGHT:	227 cm
HEATER :	Cult-si
OUTER COLOR :	Thermowood

Wood Tiny offers the authentic feel of wood in a compact size. It is our smallest solid-wood hot tub, ideal for both cute little gardens and patios. The hot tub’s size and upgraded shape make Wood Tiny the optimum option for couples and settings where water consumption must be kept to a minimum. Thanks to the short heating time and small water volume, you can have a relaxing dip even on an otherwise busy evening. Wood Tiny offers everything you need for a great, wood-heated hot tub experience.

The new hot tub model was introduced in early March 2022.

The hot tub is heated with an external grey Cult-si heater, suitable for heating small tubs. It is made out of high-quality marine-grade aluminium.

The heat-treated pine used in the outer shell is a Finnish alternative for dark-coloured imported wood. ThermoWood is a high-quality, long-lasting material with a warm brown colour that maintains its shape well.

The barrel diameter is 170 cm and water volume 760 litres. It is suitable for 1-2 people. The dry weight of the hot tub is 140 kg. The gross heat output of the CULT-si stove is 36 kW and the net heat output transferred to the water is 22 kW.
